

40 Spotted Pardalote Boxes

All measurements in mm

Ends: 132 * 120

Sides: 132 * 245

Base: 245 * 120 + twice plywood thickness

Lid: 285 * 120 + twice plywood thickness

Baffle: 50 * 120 (install 70mm from front)

Mounting support: 55 * 170

Front end has hole 35mm diameter in centre.

Hinge the lid so the box can be checked and
cleaned periodically

Use the mounting plate to screw into the tree,
so the box is more or less level. A 65mm tek
screw or similar will work well.
